

HAPPY HEALTHY AGING MONTH

What is Healthy Aging Month

It is the national celebration month created to celebrate the positive side of growing older! There are over 76 million baby boomers today over 50, and the first of the generation x-ers met their milestone year in 2015. One way to celebrate National Aging Month is to use this month to plan out some new goals and bucket lists. Who says, it is too late to go on that dream vacation trip, test your physical abilities by joining a dance studio, or do something wildly different from anything you have ever tried before.

Healthy Aging Tips

1. Stay Connected

Go out with friends and family and do activities that you enjoy.

2. Be Positive

Distance yourself from negativity and negative people, be more positive in life and smile more

3. Get More Sleep

Make sure to get the recommended amount of sleep which is 7-8 hours a night. Also, feel free to take naps during the day to get a boost of energy throughout the day.

4. Be Active

Exercise can improve mobility, muscle strength and bone health. Stay motivated by finding a great work-out buddy or fitness club that meets your needs.

5. Volunteer

Volunteer your time and give back to your community by volunteering your talent and time to those most in need
